

## SutiDSignature™

SutiDSignature is an easy-to-use web-based (SaaS/Enterprise) handwritten signature verification solution that is used to confirm the authenticity of business transactions which involve signing. User authentication is performed using unique parameters from the signature such as velocity, pressure, strokes, etc.

SutiDSignature allows you to instantly sign documents from anywhere, increases no. of signed documents, reduce approval cycle times, manual processing costs and eliminates paper use.

SutiDSignature includes some unique features such as: golden five signatures, gradual enrollment and seamless integration that make it the best tool for handwritten signature based approvals.

### Key Features Include:

- ✓ Handwritten Signature Capturing
- ✓ SmartPhones Support
- ✓ Secured Approval
- ✓ Golden Five Signatures
- ✓ Client-Server Solution
- ✓ Seamless Integration
- ✓ Gradual Enrollment
