

## SutilInvoice™

SutilInvoice is a web-based solution that allows users to easily Invoice your Customers. It enables you to create, send and manage your Invoices online. Using SutilInvoice, you can monitor customer payments and accept online payments from Customers. Users are quickly able to see the Invoices that are paid, the ones that are outstanding, narrow down the Invoices that are past due and take appropriate action. Users can track customer payments and sending of payment confirmation mails to Customers.

SutilInvoice reduces paper use, time required for tracking Invoices and their payments manually. The solution provides a central repository for storing Invoices, Payment Receipts etc. Reduces Invoice-payment cycle times, eliminates the tasks & costs involved in sending Invoices manually, reduces the no. of enquiries from Suppliers, makes the process faster and easier.
