Integrated SutiHR Solution Transformed the way Kevin Panter Insurance Manage HR Processes

"

"SutiHR solution has automated and streamlined most of the complicated HR management processes and enabled us to gain higher ROI."   *- Christine Callihan*

Inefficiency Being the Key Problem

Kevin Panter Insurance had been using multiple solutions to track their employees' time and attendance. With the expansion of the business, time tracking has become a significant problem for them. On the other hand, managing employee information with the traditional paper-based process is also a major concern for the organization. Kevin Panter Insurance was seeking to invest in a unified solution that securely stores employees' information and enables them to configure multiple time-off accrual rules and PTO hours for each employee.

Leaping ahead with SutiHR Solution

Prior to SutiHR, Kevin Panter Insurance had relied on TrackSmart and Power Clock solutions to manage employees' attendance and PTOs. But, these solutions are not adequate to handle employee time schedules effectively. However, SutiHR enabled Kevin Panter Insurance to create multiple PTO rules for hours, accruals, and allowances as required for each employee.

About Kevin Panter
Kevin Panter Insurance offers a wide range of insurance policies, including commercial and personal property insurance, corporate and personal health insurance, life insurance, and more to a diverse group of clients. Initially founded as a captive agent for Cotton States Insurance Company in 1992, Kevin Panter Insurance transitioned to an independent insurance agency in 2007.

With more than two decades of experience in the industry, they craft and deliver the very best insurance solutions to enterprises, individuals, and families of all sizes. Their goal is to make customers happy when they buy a policy, and in the unfortunate situations when they might have a claim.

The intuitive self-service dashboard made it simple for Kevin Panter Insurance employees to update their basic details, which in turn reduced the burden on human resource department. SutiHR also allowed Kevin Panter Insurance to store and manage employee records and other crucial business data on a secured cloud platform, allowing authorized people to access the information whenever required.
